Summary

Results-oriented Software Engineer specializing in building scalable, AI-driven systems. Expertise in Python, JavaScript frameworks, and cloud-based distributed architectures. Proven ability to design and deploy production-ready applications, with a focus on optimizing performance and creating user-friendly interfaces.

Technical Skills

Languages: Python, JavaScript, SQL

Frameworks: React, Vue.js, Django

Tools: Git, Docker, AWS, SQLAlchemy, Pandas

Deployment: Kubernetes, Microservices, Azure

Experience

Circleup AG

December 2023 – July 2024

Lead Full Stack Engineer (Frontend Focus)

Zurich, Switzerland

- Developed responsive web applications using React and Django, focusing on API integrations and scalable architectures.
- Led front-end UI/UX design, implemented reusable components, and optimized application performance.

Cedzlabs

March 2023 – July 2024

Full Stack Developer

India

- Designed intuitive UIs with React and collaborated on cross-functional teams to deliver projects on time.

Projects

AI Resume Tuner — Azure, Next.js, RAG, LLMs

August 2023

- Built an AI-driven resume generator for creating customized resumes, utilizing Retrieval Augmented Generation (RAG) and LLMs. Developed frontend with Next.js and deployed on Azure for scalability.

Portfolio Website — NextJS, AWS

January 2023

- Created a personal website with a secure file encryption system, deployed on AWS with Next.js.

Languages

- Telugu - Native — English - Fluent — Hindi - Fluent — German - Elementary

Achievements / Extracurricular

- Implemented Agile methodologies in teams, actively contributed to open-source projects.
- Attended tech meetups on UI/UX and AI development.

Strengths: Leadership, attention to detail, adaptability, and problem-solving.
