## Summary

Dynamic Full Stack Developer with extensive experience building AI-driven web applications. Proven track record in integrating APIs, optimizing performance, and delivering high-quality, maintainable code. Passionate about personal growth, scalability, and AI technologies in property management solutions.

## Technical Skills

**Frameworks** - React, Next.js, Node.js, Django, Express.js, TailwindCSS, Figma.

**Languages** - JavaScript, TypeScript, Python, SQL.

**Tools** - Git, Docker, Postman, Swagger, RESTful APIs.

**Cloud** - AWS, Azure, Firebase, Google Cloud.

## Experience

### Circleup AG

Lead Full Stack Engineer

Jan 2024 – Present

Zurich, Switzerland

#### Responsibilities:

- Developing AI-driven features for property management software with seamless API integrations.
- Ensured high-quality, scalable code by conducting thorough code reviews and performance testing.
- Led the design and implementation of reusable front-end components, improving development speed and quality.

**Environment:** React, TypeScript, Django, PostgreSQL, AWS, Docker, LLMs, OpenAI API.

### Cedzlabs

Full Stack Developer

Aug 2022 – Dec 2023

India

#### Responsibilities:

- Developed full-stack applications using React, Node.js, and Firebase, ensuring cross-platform compatibility.
- Led migration of legacy systems to modern, scalable web services using cloud-based solutions.

**Environment:** React, Node.js, Firebase, Docker, Git, JavaScript.

## Projects

### AI Property Manager | Next.js, Node.js, OpenAI API, Firebase

Mar 2024 – Present

#### Description:

- \* Developed an AI-powered property management platform to automate tenant communication, using OpenAI's GPT APIs for generating personalized responses and integrating Firebase for real-time updates.

**Tools:** Next.js, Firebase, OpenAI API, Node.js.

### AI Resume Tuner | Azure Cloud, Next.js, RAG, LLMs

Aug 2023

#### Description:

- \* Developed an AI-powered resume tuning tool that generates tailored resumes based on job descriptions and user input, leveraging LLMs and deployed on Azure.

**Tools:** Next.js, Azure, LLMs, RAG.

## Achievements

- \* Successfully optimized tenant communication by integrating AI-powered systems, reducing response times by 30%.
- \* Led the development of scalable full-stack applications for over 400+ tenants using React and Firebase.
- \* Contributed to open-source projects related to AI-driven web technologies and design systems.
