## Projects

E-commerce Store Development | PHP, Magento 2

January 2024 | Freelance

#### Description:

- Created a fully functional e-commerce website using Magento 2, including custom modules and themes. Integrated payment gateways and ensured compliance with security best practices.

**Tools:** PHP, Magento 2, MySQL, Docker.

Portfolio Website | NextJS, AWS

January 2023

#### Description:

- Designed and implemented a secure file encryption/decryption system on AWS, built and deployed a scalable website using NextJS, and created a user-friendly UI/UX for my portfolio using Figma and React.

**Tools:** NextJS, AWS, Figma, React.

## Achievements / Extracurricular / Contributions

- Successfully completed several projects enhancing Magento performance through code optimization and caching strategies.
- Active participant in tech meetups, sharing knowledge on PHP and e-commerce best practices.
- Contributed to Magento open-source projects, focusing on improving plugin functionality and documentation.

**Strengths :** Leadership, self-motivation, attention to detail, and adaptability.
