Hiring Manager
Yoordi
Zurich, Switzerland

Dear Hiring Manager,

I am excited to apply for the Full Stack Developer position at Yoordi, where I can bring my expertise in React, Node.js, TypeScript, and MongoDB to contribute to the continued success and growth of your innovative SaaS platform. With a strong foundation in developing scalable web applications and experience in backend API design, I am eager to help Yoordi drive digital transformation within the hospitality industry.

At Circleup AG, I served as Lead Full Stack Engineer, where I was responsible for creating modern, responsive web applications and ensuring seamless API integration. I collaborated directly with the CTO and cross-functional teams to design user-centered interfaces while focusing on scalability and performance optimization. My proficiency in cloud platforms, including Microsoft Azure, allows me to develop and scale applications efficiently—making sure they are secure and reliable.

My experience with GitLab for version control, CI/CD processes, and my background in agile development methodologies have equipped me to work effectively in dynamic, fast-paced environments. Moreover, my proactive, solution-oriented approach ensures that I can quickly adapt to challenges, delivering high-quality, innovative solutions that align with business objectives.

Yoordi's commitment to providing high-quality self-ordering and POS systems aligns with my passion for building impactful solutions that enhance user experience. I am excited by the opportunity to work with a forward-thinking team and contribute to creating a seamless, flexible, and scalable product for the hospitality sector.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences can contribute to Yoordi's vision. Please find my resume attached for your review.

Sincerely,
Venkata Sai Yakkshit Reddy Asodi
